

MELAMINE PADS

MELAMINE PADS are special floor pads for cleaning marble, terrazzo, porcelain tiles, natural stone, linoleum, epoxy resins. Melamine pads are a high-quality eco-friendly product; their use reduces the need for aggressive detergents and chemicals.

SURFACES:

- Marble and terrazzo • Klinker and ceramic
- PVC/Vinyl/Linoleum • Engineered stones
- Epoxy resin flooring • Hyperconcrete® - polished concrete • Homogeneous tiles

TECHNOLOGY:

Melamine foam is a foam-like material consisting of a formaldehyde-melaminesodium bisulfite copolymer. Melamine foam is the active component of a number of abrasive cleaner sponges. The open-cell foam is microporous and its polymeric substance is very hard, so that when used for cleaning it works like extremely fine sandpaper, getting into tiny grooves and pits in the object being cleaned. Rubbing with a slightly moistened foam, it remove otherwise "uncleanable" external markings from surfaces. For example, melamine foam can remove crayon, marker pen, adhesive residue and grease from any surfaces.

PROPERTIES	VALUES
Thickness	18mm
Fiber type	Sodium bisulfite copolymer and melamine formaldehyde
Bonding system	Pressed melamine resin foam

MACHINES:

ROTO
ORBITAL

SCRUBBER
DRYER

SINGLE DISC

STRENGTHS:

- Extraordinary mechanical cleaning results.
- Enhanced protection, shine, and brilliance.
- Compatible with both scrubber dryers and single-disc machines.
- Suitable for all standard drive plates.
- Superior results and durability compared to competitors.

BENEFITS:

Melamine pads allow for effective, eco-friendly, and cost-efficient cleaning of various surfaces without the need for additional chemicals or additives.

PERFORMANCE AND USAGE:

- Longevity: Approximately 10,000 square meters per pad.
- Ideal for the removal of:
- Accumulated dirt. • Oils and oily contaminants. • Grease stains.
 - Permanent marker. • Rust stains. • Daily dirt.

AVAILABLE SIZES:

6" - 150mm
9,5" - 240mm
17" - 430mm
