

H SERIES

The tools of the H Series are specifically designed for grinding **hard concrete floors** (with a hardness grade of approximately 7-8 on the Mohs scale). This tool features **2 large-sized segments** (A10xL40xL10mm), making it highly efficient, providing significant material removal capacity with minimal tool wear.

DRY USE FOR CONCRETE FLOOR PREPARATION:

ADVANTAGES:

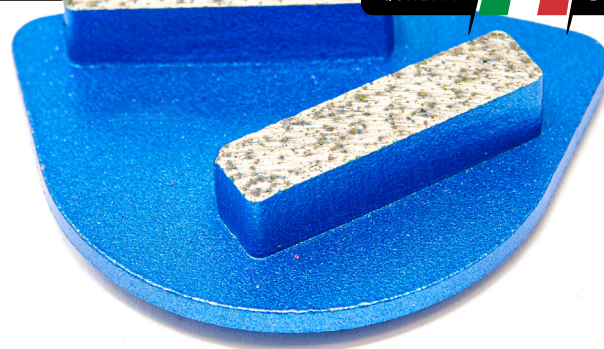

HG HYPER PREP represents the leading line of preparation tools, ensuring profitable results while respecting deadlines. Thorough preparation of the surface is essential, especially on concrete floors and surfaces. In challenging preparation situations, the choice of tools makes a difference. Whether it's removing old paints or leveling compounds for a new coating or preparing a concrete surface for grinding and polishing, selecting the right tools is crucial for achieving excellent results. The "curved attachment" system of the Quick Lock tool allows for easy mounting and dismounting, ensuring a solid grip during operation.

GRITS:

● H 00 - GRIT 20

● H 0 - GRIT 40

● H 1 - GRIT 70

● H 2 - GRIT 140

OTHER AVAILABLE SIZES:

The Quick Lock diamond tools can be used on all tool holders from $\varnothing 140\text{mm}$ to $\varnothing 430\text{mm}$, thus facilitating the operator's work who can use the same line of tools even with different machines.

The $\varnothing 100\text{mm}$ and $\varnothing 140\text{mm}$ diameters are available with AS attachment.

The $\varnothing 200\text{mm}$, $\varnothing 240\text{mm}$ and $\varnothing 340\text{mm}$ diameters are available with QA attachment.
