

M SERIES

Quick Lock

**BEST
QUALITY**

**MADE IN
ITALY**

The M Series tools are specifically designed for grinding **medium-abrasive concrete** floors (with a hardness of approximately 5-7 on the Mohs scale). These tools feature **2 large segments** (10mm x 40mm x 10mm) that make them highly efficient, providing significant material removal capacity while minimizing tool wear.

DRY USE FOR CONCRETE PREPARATION:

ADVANTAGES:

HG HYPER PREP represents the leading line of preparation tools, ensuring profitable results while meeting deadlines. Accurate substrate preparation is essential, especially on floors and concrete surfaces. In challenging preparation situations, the choice of tools makes a difference. Whether it's removing old paint or levelers for a new coating or preparing a concrete surface for grinding and polishing, selecting the right tools is crucial for achieving excellent results. The Quick Lock tool's "curved engagement" system allows for easy mounting and dismounting, ensuring a secure hold during operation.

RECOMMENDED MACHINES:

**BIG
GRINDERS**

SINGLE DISC

**SMALL
GRINDERS**

**TOPS AND STAIRS
GRINDERS**

**PERIMETRAL
GRINDERS**

GRITS:

- M 00 - GRIT 20
- M 0 - GRIT 40
- M 1 - GRIT 70
- M 2 - GRIT 140

OTHER AVAILABLE SIZES:

- Quick Lock tools can be used on all tool holders ranging from $\varnothing 140$ mm to $\varnothing 430$ mm, making it easier for the operator to use the same line of tools with different machines.
- Diameters $\varnothing 100$ mm and $\varnothing 140$ mm are available with AS attachment.
- Diameters $\varnothing 200$ mm, $\varnothing 240$ mm and $\varnothing 340$ mm are available with QA attachment.
