

M SERIES

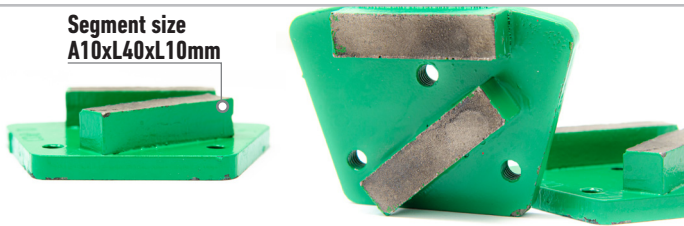

The M Series tools are specifically designed for grinding **medium-abrasive concrete** floors (with a hardness of approximately 5-7 on the Mohs scale). These tools feature **2 large segments** (10mm x 40mm x 10mm) that make them highly efficient, providing significant material removal capacity while minimizing tool wear.

DRY USE FOR CONCRETE PREPARATION:

ADVANTAGES:

Segment size
A10xL40xL10mm

HG HYPER PREP represents the leading line of preparation tools, ensuring profitable results while meeting deadlines. Accurate substrate preparation is essential, especially on floors and concrete surfaces. In challenging preparation situations, the choice of tools makes a difference. Whether it's removing old paint or levelers for a new coating or preparing a concrete surface for grinding and polishing, selecting the right tools is crucial for achieving excellent results.

RECOMMENDED MACHINES:

BIG GRINDERS

GRITS:

- M 00 - GRIT 20
- M 0 - GRIT 40
- M 1 - GRIT 70
- M 2 - GRIT 140

OTHER AVAILABLE SIZES:

- Quick Lock tools can be used on all tool holders ranging from $\varnothing 140$ mm to $\varnothing 430$ mm, making it easier for the operator to use the same line of tools with different machines.
- Diameters $\varnothing 100$ mm and $\varnothing 140$ mm are available with AS attachment.
- Diameters $\varnothing 200$ mm, $\varnothing 240$ mm and $\varnothing 340$ mm are available with QA attachment.
